## **SPACE CLUB OF SSMIET**

Traverse Beyond You

Our SSMIET Space Club is dedicated to explore and promote the study of space science and technology. It is typically composed for undergraduate and graduate students with a passion for astronomy, astrophysics, aerospace engineering and other space-related domains. The club provides a forum for students to discuss and learn about the history as well as the latest developments in space research, technology and exploration.

The primary focus of our space club is to foster interest in space exploration and promote STEM education among students. Members of the club will get opportunities to organize and participate in various activities such as stargazing events, workshops, internships, rocket launches, International & National programs and guest lectures from professionals in the field. Members can also participate in competitions or collaborate on research projects related to space.

The club serves as a networking platform for students interested in pursuing careers in the space industry. Members can connect with alumni and professionals actively involved in this field and gain valuable insights into the industry. Additionally, the club will organize field trips to space-related facilities or conferences provide opportunities for members to gain hands-on experience and exposure to the latest trends and technologies in the field.

Overall, our SSMIET space club will provide a supportive and stimulating environment for students to explore their interests in space-related disciplines and engage with like-minded professionals. It is an excellent way to gain practical experience and enhance one's skills and knowledge in the field of space exploration.
